NIUE'S NATIONAL SHOW DAY 2024 *50th Constitution Celebrations*

Niue's annual National Show Day is one of the island nation's most eagerly awaited events, bringing the community together to celebrate Niuean culture, agriculture, and local enterprise.

Held every October in Alofi, the Show Day is a unique blend of festivity and pride, showcasing the best of Niue's agricultural products, crafts, and businesses. For Niueans, it's an opportunity to honor their heritage, promote sustainability, and nurture community spirit. For visitors, it's a chance to immerse themselves in the island's vibrant culture.

This year, the Niue Chamber of Commerce re-joined the National Showday as part of the 50th Constitution Celebrations, with a dedicated exhibition to support and highlight the island's growing business sector. The exhibition also highlighted the organizations progress within the 50 years of self-governance and services offered to the local business community and opportunities for the diaspora overseas to connect with Niue's private sector. The team were also fortunate to connect with international and regional ambassadors on the island for the 50th Constitution Celebrations.

Tokelau Ambassador (left photos) and French Ambassadors (right photo) with team in the NCOC Exhibit

With every Show Day, Niueans reaffirm their connection to the land, celebrate their cultural legacy, and envision a prosperous future. The Niue Chamber of Commerce strives for sustainable growth for Niue's private sector going forward into another 50 years of self-governance.

FROM THE DESK OF THE NCOC CEO CATHERINE ETUATA PAPANI

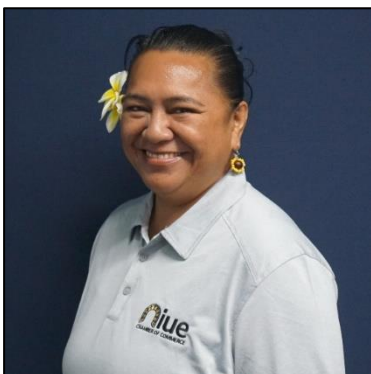

It has been said that busy people usually have extremely strong work ethics, motivation, and drive to succeed, which is perhaps the main reason they are always busy. This has been the case for the tourism season this year especially seen in the accommodation, food and beverage, marine activities, tours and retail.

I am reminded by a close friend's saying, who I will refer to as the other Mrs. P:

"In business there is no rest for the blessed".

It has highlighted major capacity issues on Niue, both in private sector and public sector. It also highlights that valuing your human resources that you currently have in your business plays a big part in how well your business will perform in these busy times both in customer service and profitability.

Our NCOC office has also had no rest with the ongoing staff movements that seems to be a never-ending challenge. This has been the experience of many of our businesses and also our government agencies. And since our last issue – Roxanne Scanlan and Kate Roughan have moved on from NCOC due to personal and family commitments but we wish them the best for their future endeavors. Following their departure, we welcomed another new addition to the office – Myrtle Magatogia.

Myrtle Magatogia

Projects & Education Coordinator

Myrtle joined our team in the month of August and will now continue to complete the delivery of the NCOC Entrepreneurship Education programme to both Niue Primary School and Niue High School for this year, reviewing the programme ready for delivery in 2025. We are indeed fortunate that Myrtle joins the team in a position that she knows very well as a qualified teacher herself and also having worked in the Niue Development Bank prior to leaving for New Zealand with her family to obtain her teacher's qualification.

FROM THE DESK OF THE NCOC CEO CATHERINE ETUATA PAPANI

This year, 2024 has been in full swing and NCOC work can get overwhelming as we continue in promotion, training, events as well as continuing to ensure that an enabling environment that is conducive for business operations is created, strengthened and advocated for along with succession planning with our entrepreneurship education for our future business leaders.

NCOC office is open Monday to Friday: 8:00am to 4:00pm. Drop in and talk business or let us help you in your business or perhaps get into business.

CLEAR AND CONCISE – A BUSINESS WRITING WORKSHOP WITH MIRAKA DAVIES

In November, the Niue Chamber of Commerce hosted the Clear and Concise Business Writing Workshop led by Miraka Davies. The event provided valuable insights into effective communication, leaving the attendees inspired and equipped with new skills. Participants praised the workshop for its practical approach, with topics covering how to write with confidence, clarity, and impact. Miraka's expertise and energetic teaching style resonated with the group, helping attendees learn how to craft concise emails, secure faster approvals, and improve overall communication in their business operations. The NCOC team also got some training in this space and have found it useful in their own professional development. NCOC is always grateful to overseas professionals like Miraka Davies for providing training opportunities for our business community. We look forward to hosting more events like this to continue supporting Niue's thriving business community.

CERTIFICATE PRESENTATIONS FOR THE NIEUE JUNIOR & YOUNG ENTREPRENEURS OF 2024

In November, the Niue Chamber of Commerce (NCOC) concluded their entrepreneurial education programs at the Niue Primary School & Niue High School for the Year.

The NCOC team proudly celebrated the incredible achievements of the 2024 Niue Junior Entrepreneurs with the official presentation of their PROFITS and Certificates of Participation. The talented Year 5 & 6 students from Niue Primary School (NPS) launched and sold their business products at the NCOC Business Expo held in October this year.

Similarly, the efforts of the Niue Young Entrepreneurs of Niue High School (NHS) were also celebrated and acknowledged with a Certificate Presentation for the years work in business learning. The Year 10 students also launched and sold their business products at the NCOC Business Expo held in October.

The NCOC team would like to thank all the students for their hard work and to the teachers & Principal from NPS & NHS for their collaboration. We look forward to working with you again next year!

PIFS E-COMMERCE WORKSHOP FACILITATED BY GLEN JACKSON

The two-day E-commerce workshop organized by the Pacific Islands Forum Secretariat (PIFS) with support from Pacer Plus was facilitated by Glen Jackson, who is local Niuean business with expertise in the area. Designed to help local businesses embrace the digital economy, the workshop provided practical guidance on building online platforms and navigating e-commerce opportunities.

Participants benefited from expert insights, including a behind-the-scenes look at website operations led by local expert Dessyo Sioneholo and practical strategies from Mattia De Biasi. The event emphasized collaboration and mutual learning among attendees.

With support from the Niue Chamber of Commerce, the workshops were held at the NCOC training room to aide the business community in an exciting step forward for Niue's digital future—"Niue ki Mua!"

SRI CHINMOY ONENESS-HOME PEACE RUN VISITS THE NIUE CHAMBER OF COMMERCE

In early November, the Sri Chinmoy Oneness-Home Peace Run group visited Niue as their last destination country for the year for the *Peace Run*. The Peace Run is a global relay, founded by Sri Chinmoy, that promotes international friendship and understanding. With their visit to the island the group passed the Peace Torch Batton through several villages on the island and even the business village of the Swanson Complex.

The Peace Torch Batton made it to the Niue Chamber of Commerce & around the Swanson Complex to pass among the businesses. The Niue Chamber of Commerce is absolutely thrilled and grateful to also have received from the Sri Chinmoy Peace Run group a Certificate of Appreciation. Fakaauae lahi for visiting and bringing the peace run to our little business nook here at Fonuakula.

November 4th 2024 – The Peace Batton being past around Businesses around Swansons Complex

NIUE BUSINESS EXPO 2024

On October 24 2024, the Niue Chamber of Commerce hosted its much-anticipated Annual Business Expo, a key event dedicated to supporting and showcasing local businesses across Niue. Held at the Commercial Center in Alofi, this year's Expo brought together businesses, local groups, the Young & Junior Entrepreneurs and community members to celebrate Niue's growing business sector and foster connections among the island's thriving enterprises.

The Expo, an annual highlight for the business community, served as a platform to spotlight the resilience and creativity of local companies, offering them the opportunity to present their products, network, and explore potential partnerships.

THE 2024 LAUNCH OF THE NIEUE JUNIOR & YOUNG ENTREPRENEUR

Because getting started is the hardest part of any business this didn't stop the Niue Junior Entrepreneurs and Niue Young Entrepreneurs from achieving their business goals at the Niue Business Expo on Thursday 24th October at the Commercial Centre.

The Niue Junior Entrepreneurs were busy at their own business class stalls selling their calendars with each student having an art piece embracing the school term theme of "People in their Oceans". Their class calendars captured student own art piece, class photo and the winning logo.

The Niue Junior Entrepreneurs also took on the initiatives themselves to make fresh flowered fofou (headbands), seashell jewelries and photo frames to sell alongside their class calendars. There was a lot of interactions and exchange of kind words empowering the Niue Junior Entrepreneurs to sell their products and at the same time practice their mathematical and customer skills.

The Niue Young Entrepreneurs were busy at their business stalls setting up and ready to embark on their business journey selling their completed products and service with a smile. The Niue Young Entrepreneurs sold range of products from printed t-shirts, bracelets, anklets, ear-rings, calendars, tote bags, bucket hats, phone charms, ocean themed eco-friendly headbands and drinking bottles, coconut oil and tafi kaniu.

Niue Young Entrepreneurs were busy, sure to serve their customers professionally and ensuring customers were happy with their products.

The Business Expo was a success and an accomplishment for the Niue Junior and Niue Young Entrepreneurs because it provided students the opportunity to come up with ideas, turn those ideas into a product to sell. The students have shown they on a viable business pathway, learning entrepreneurial concepts.

To all the Niue Junior Entrepreneurs and Niue Young Entrepreneurs, embrace every challenge and hardship because knowing over time your commitment will bear its fruits. The best time to start a business is when you're young.

"Successful Entrepreneurs are givers and not takers of positive energy" (Naveen Jain)

THE GREEN CLIMATE FUND

Pacific Regional Cohort Community of Practice Workshop

In September, Niue's GCF National Designated Authority (PMCU) through the Readiness program hosted 8 Pacific countries in Niue as part of Pacific Regional Cohort Community of Practice Workshop. Representatives from Tuvalu, Palau, Maldives, Vanuatu, Cook Islands, Micronesia, Republic of Marshall Islands and the Solomon Islands shared their best practices, exchanged knowledge, contributed to learning and brainstorming challenges and opportunities of how to navigate the GCF processes to access climate finance in the Pacific. Key stakeholders on Niue also got the opportunity to present their experience and success stories in this space. The Niue Chamber of Commerce was privileged to have presented work completed within GCF Readiness I & II and progress within Niue's private sector, one of which was the *Drafting of the Private Sector Climate Finance Strategy and Action Plan* earlier on in the month of September.

September 18 2024 – Pacific Regional Cohort Community of Practice Workshop Day 2 with a Private Sector presentation by NCOC's Julie Talagi and Charlotte Magatogia.

September 17 2024 – Pacific Regional Cohort Community of Practice Workshop Day 1

PROJECT PLANNING WORKSHOP

On Tuesday 10th September to Thursday 12th September 2024, the Niue GCF National Designated Authority (NDA) and SPREP under the Pacific Climate Change Centre conducted a training workshop mainly focusing on the practical knowledge and skills of project planning, the implementation and management. The private sector was represented by NCOC's Projects & Education Coordinator – Myrtle Magatogia and Board Member – Julie Talagi.

The objectives of the training workshop based on project planning, budgeting, schedules, execution, monitoring and evaluation. The training was mainly focused on key outcomes which was understanding the background knowledge on climate change projects on Niue and mainly GCF (Green Climate Finance) in general, to strengthen capacities to execute and facilitate problem and objective tree analysis and the logical framework development for climate change project formulation, understanding theory of change and the formulation of logical framework and the practical exercise of developing a project idea through this logical framework.

Under the Niue GCF Country Programme Priorities, the two project priority areas the workshop mainly focused on was Food Security and Infrastructure because these two areas affect the private sector as a whole. We look forward to the activities that was chosen to help endorse or implement the sustainability for food sources and accessible infrastructure to help Niue more resilient to the impacts of the climate change and moving forward to achieving sustainable livelihoods in Niue.

NIUE INTEGRATED OCEAN MANAGEMENT STRATEGY BLUE ECONOMY STRATEGY FOR NIUE

In September, a team of three from the UNDP's Samoa office came to Niue to conduct a workshop on a Blue Economy Strategy for Niue and to construct innovative and sustainable policies and digital solutions for improved food and livelihood security. Blue Economy is defined as the sustainable use of ocean resources for economic growth, improved livelihoods, and jobs while preserving the health of the ocean ecosystem. Having a more comprehensive understanding of Niue's efforts that have already helped to create a blue economy and what might be prioritized going ahead is one of the workshop's goals and anticipated outcomes.

September 17 2024 – Women Focus Group - Blue Economy Strategy for Niue

NIUE CHAMBER OF COMMERCE – ANNUAL GENERAL MEETING

NCOC held its Annual General Meeting on Thursday 29 August 2024, where CEO – Catherine Papani presented its Annual Report to its members for the financial year 2023/2024. Representatives from Government of Niue, Hon. Mona Ainuu; New Zealand High Commission, Deputy NZ High Commissioner – Elena Procter and Australian High Commission – H.E. Katy Stuart all provided opening addresses to the businesses present.

Membership continues to grow and along with it new businesses and existing businesses adding new income streams. The business confidence survey provided the following results which is a positive outlook by the businesses on Niue:

Table 1: Businesses were asked, how the current general business conditions on Niue was over the past 12 months -

| | 2023 |
|-------------------|------|
| | (%) |
| Improved | 48.4 |
| Remained the same | 29.0 |
| Deteriorated | 16.1 |
| Don't Know | 6.5 |

Table 2: How do you expect your business activity (i.e. volume/hours spent in business, revenue) to change?

| | 2023 |
|-----------------|------|
| | (%) |
| Increase | 65.5 |
| Remain the same | 18.8 |
| Decrease | 3.1 |
| Don't Know | 12.5 |

Table 3: Key Results – Top 3 Issues affecting success of businesses.

| | 2023 |
|--------------------|--------|
| | Ranked |
| Freight | 1 |
| Shortage of Labour | 2 |
| Cost of Supplies | 2 |
| Access to Finance | 2 |
| Climate Change | 3 |

As mentioned in the Annual Report for 2023/2024 a broad-based recovery across the Pacific is in play as the impact of the Covid pandemic recedes and economies reopen. However the challenge still remains with structural risks from disaster impacts and climate change. As we get out of the shadow of Covid impacts we enter into a business environment on Niue of labour shortages, need to redesign businesses and the awareness of businesses to understand how to adapt and mitigate climate change impacts and not forgetting potential business transformation driven by AI.

A copy of the Annual Report is available on request through email: info@niuechamber.com or drop in and pick up a hard copy.

The evening ended with sharing of refreshments and the opportunity to network with fellow peers in the private sector.

NIUE JUNIOR ENTREPRENEURS: PROGRESS UPDATE

An entrepreneur is a person who organizes and operates a business, taking on greater financial risks.

This year, the students have learnt a lot about our existing and successful private sector businesses and the process it takes to bring a business idea to life. Junior Entrepreneurs have displayed these qualities of great entrepreneurship with their learning, commitment and perseverance.

NCOC's Junior Entrepreneur program at Niue Primary School is well underway as the three Year 5 & 6 Junior Entrepreneurs classes of 2024 have been working on their products to sell at the Niue Business Expo on Thursday 24th October at the Commercial Centre, Alofi.

NIUE YOUNG ENTREPRENEURS: PROGRESS UPDATE

The Young Entrepreneur program at Niue High School finds the two Year 10 classes at their production phases of their business groups. Leading up to the production phase, students completed their bank interviews with the Niue Development Bank providing their business plans and financial forecasts. Within each class, separate business groups are formed with each group creating their diverse range of products like Niue printed t-shirts, bucket hats, ocean themed fabric flowered headbands just to mention a few. There are 8 business groups (Aqua Merch, Mana Squad, Mana Tafua, Moana he Tofia, Moanaz, NAS, Ousiana and Soul Water) who have all shown they are on a viable business pathway, learning entrepreneurial concepts. We look forward to the Young Entrepreneurs and their completed products at the Business Expo.

NORA SWANN LTD CONNECTING TO NIUE'S PRIVATE SECTOR

The Niue Chamber of Commerce had the privilege of collaborating with Nora Swann, a Pacific Islander entrepreneur based in Auckland New Zealand who is of Niuean descent and recently signed on to be an affiliated member of NCOC. On Thursday 8 August, she facilitated the Dressed in Confidence workshop to local business owners and figures in the private sector. The workshop saw great turnout with many interested and eager participants who got to the opportunity to sit in and learn about health & wellbeing, professional styling and even receive a colour analysis by Nora who kindly offered this service for free to our NCOC members.

While on island, she also delivered a business mindset session to our Young Entrepreneurs at Niue High School. Fakaau lahi Nora for reaching out and providing this opportunity for Niue's private sector.

PHAMA PLUS DATA ANALYST

PHAMA Plus and the Niue Chamber of Commerce (NCOC) continue their working partnership to ensure that NCOC's organization's policies, procedures, and information remain current and relevant to enable more informed decision-making in the private sector.

As part of the working partnership, the NCOC team is once again grateful to have Anish Reddy; the PHAMA Plus data analyst consultant spend a week in Niue again this year during August. He continued work on the NCOC CRM Database in order to ensure that key business data is captured, analyzed and reported while also training the team on how to make the best use of the data gathered in our private sector.

WORLD INTELLECTUAL PROPERTY ORGANISATION – NON-GOVERNMENT ORGANISATIONS STAKEHOLDER DIALOGUE

As a board member of Tofia Niue, and as CEO of Niue Chamber of Commerce (NCOC); Catherine Etuata Papani, was given the opportunity to represent Niue at the WIPO-NGO Stakeholder Dialogue on July 11, 2024 and bilateral meetings on July 12, 2024 at the Headquarters of the World Intellectual Property Organization (WIPO), Geneva.

Whilst the week-long trip was grueling with flight travel that clocked up a total of 54 hours in the air, it definitely was a humbling opportunity to be given. The ability to represent both Tofia Niue and the private sector of Niue as CEO for NCOC, at this international dialogue provided opportunity to talk about the business environment on Niue and seek information on the processes and assistance that is possible to access to assist our businesses in understanding intellectual property and what it means to their business products and services.

This year's "WIPO-NGO Stakeholder Dialogue," was held during the 65th WIPO Assemblies of Member States, and brought together representatives from over 60 NGOs and industry stakeholder groups accredited at WIPO. WIPO Director General Daren Tang shared remarks on the role of NGOs in advancing IP and bringing it to the grassroots. A session was provided to us participants to see how innovation and technology intersect with climate change and information of WIPOs work and support in this area. We were able to see how technology plays a crucial role in achieving several climate-related SDGs. By protecting innovations, the IP system encourages the development of new technologies. At the business level, IP helps in creating distinctive identities for products and services, generating revenue through licensing, and fostering collaboration.

During a question-and-answer session, NGO representatives discussed issues such as the new Treaty, WIPOs support to small and medium sized entrepreneurs, WIPOs gender action plan, and copyright protection in the digital environment especially with regard to emerging technologies.

During a question-and-answer session, NGO representatives discussed issues such as the new Treaty, WIPOs support to small and medium sized entrepreneurs, WIPOs gender action plan, and copyright protection in the digital environment especially with regard to emerging technologies.
